### What is the Foundation and what is it doing for Montana agriculture?

**Assisting in Agricultural Education:** We fund ag education programs, provide accurate agricultural materials to urban students and fund over \$20,000 in scholarships annually.

**Building Leaders for Agriculture:** MFBFo is dedicated to funding programs that will help current members and our youth develop into leaders for agriculture.

**Supporting Montana's Rural Communities:** In giving youth the opportunity for leadership and offering educational programs, we work to broaden the impact of Montana agriculture and ensure its future.
